"Play! Open your world"

Toy Libraries: keep playing alive!

This is an excellent opportunity to present the toy library work in your city, country or continent. Toy libraries need innovation to keep focused on the main subject: the value of play. There are new changes concerning play in the present and in the future. The world is changing fast, so our challenge is to keep play alive!

In your presentation you can show your colleagues the special activities in this matter, considering that play is under pressure now-a-days for different reasons.

Do you want to share knowledge, activities, success stories that have value for other toy libraries, we invite you to respond.
